Strong, robust, and user-friendly, the SPORTAB touchscreen control console is an alternative to the existing STRAMATEL control console. The SPORTAB operates remotely any STRAMATEL scoreboards from the 2017 generation of scoreboards. The wireless transmission is secured and can be completed with a wired transmission (optional cable kit).

Accurate 10th/second Timing in accordance with International sport federation requirements (including FIBA).

Automatic connection between the Touchscreen and the scoreboard.

Touch Scrolling Menu with access to different sport disciplines:

BASKET BALL – HANDBALL – VOLLEYBALL – TENNIS – TABLE TENNIS – BADMINTON – FUTSAL

Non-exhaustive list of sport disciplines available with the customization of all the features to create your own sport program: Rink Hockey, Floorball, netball

Option

24 second attack timer console
